

FIG.1

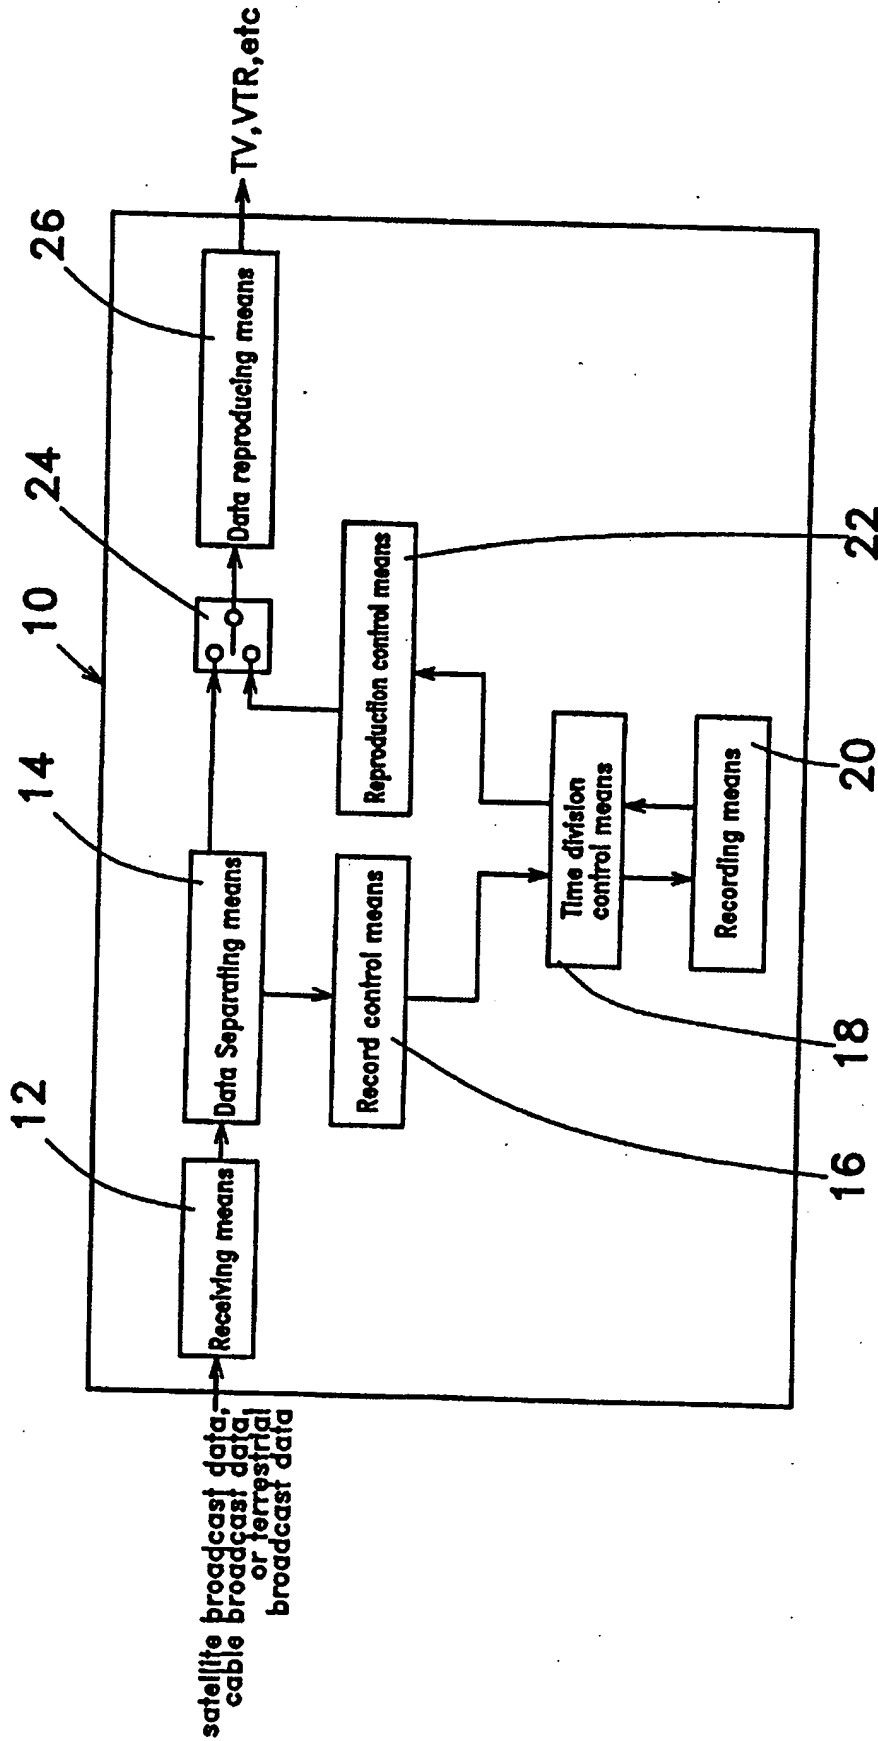

FIG. 1

Diagram 28 illustrates a data structure consisting of a sequence of blocks. Each block is divided into three sections: a Header, a Data area, and another Header. The blocks are labeled with 30 for the first Header, 32 for the Data area, and 34 for the second Header. Arrows point from the Data area of the first block, the second Header of the second block, and the Data area of the third block to a detailed view 36.

Diagram 36 provides a detailed view of a single block, showing the Header, Data area, and another Header. The sections are labeled with 38 for the first Header, 40 for the Data area, and 42 for the second Header.
